PROJECTS

Final Year Project — AI Recruiter Voice Agent | Next.js · TypeScript · Vapi AI · Gemini AI · Prisma · MySQL · Stripe [\[GitHub\]](#)

- Built an AI-powered voice interview platform using Vapi AI and Gemini AI for automated candidate interviews.
- Developed an HR Dashboard with AI response analysis, automated PDF candidate ranking reports (jsPDF), a **Stripe** credit-based payment system with 5 free interviews on signup, and Nodemailer email notifications for candidate decisions.

Graphic Design SaaS Platform (Canva Clone) | React · Fabric.js · NextAuth · MongoDB · UploadThing [\[Live\]](#) [\[GitHub\]](#)

- Built a feature-rich graphic design editor with 10+ canvas tools supporting AI image generation, freehand drawing, and complex object manipulation (rotation, layering) using **Fabric.js**.
- Engineered multi-format export (PDF, Word, PNG) with UploadThing cloud storage and a custom user dashboard for managing saved designs.

Full-Stack Learning Management System (LMS) | Next.js · TypeScript · Prisma · Stripe · NextAuth [\[Live\]](#) [\[GitHub\]](#)

- Developed a dual-role platform with a Teacher Dashboard for course creation, video/document management, and real-time sales analytics; integrated **Stripe** for secure payments and **NextAuth** for role-based authentication.
- Applied Prisma ORM indexing strategies that reduced database query latency by **20%**, improving overall platform performance.

SaaS Task Management Platform (Trello Clone) | Next.js · TypeScript · Prisma · MongoDB · Clerk [\[Live\]](#) [\[GitHub\]](#)

Built a multi-organization Kanban board with drag-and-drop task management, dynamic Unsplash backgrounds, and full CRUD operations across boards, lists, and cards.
