MUHAMMAD SUHAIB

FullStackEngineer | Next.js & React | Frontend Expert | MERN STACK

03194776162 mmsohaib617@gmail.com msuhaibgm.vercel.app Islamabad

SUMMARY

Full-Stack Developer with hands-on experience building and deploying 6 production applications. Skilled in Next.js, TypeScript, Docker, and CI/CD pipelines. Proven ability to deliver SaaS solutions with integrated AI, payment systems, and real-time features from concept to cloud deployment.

EDUCATION

BS Computer Science

University of Okara

2022 - 2026 Renala Khurd, Pakistan

EXPERIENCE

JuniorFull-Stack Developer

NIT-Services

03/2025 - 06/2025 Lahore, Internship

- Collaboratedon production-grade client projects using scalable TypeScript and Next.js App Router architecture with optimized server/client rendering patterns
- Improved codebase maintainability by converting repetitive UI sections into reusable components, and followed structured Git workflows for scalable team development

Freelance Full-Stack Developer

Self Employed

09/2025 - Present Remote

- Delivereda carrental management system for an Australian client Sep - Nov 2025 using Next.js, Prisma, MySQL, Stripe, NextAuth, ImageKit/UploadThing, Nodemailer, Recharts, jsPDF, and html2canva

PROJECTS

AI-PoweredVoice Recruiter Agent

https://ai-recruter-five.vercel.app

Full Stack Developer & System Architect | Tech Stack: Next.js 14, TypeScript, Tailwind CSS, Prisma ORM, MySQL/TiDB, Vapi AI, Groq, Stripe, NextAuth.js

- **Real-Time Multilingual Voice Interview Engine:**Built an AI-powered voice interview platform using Vapi AI and Groq AI for fully automated candidate interviews and response evaluation
- **AI-Powered Candidate Grading Pipeline:** Deployed production application on AWS EC2 using Docker containerization with multi-container orchestration via Docker Compose
- **Anti-Cheat Security & Interview Integrity:** System Implemented real-time tab tracking and browser fingerprinting to detect and log suspicious candidate behavior.
- **Pre-Interview Device Validation Suite Created:** combined mic and camera testing with live waveform analysis and face detection for candidate readiness.
- **Payment Processing & Credit Billing System:** Developed Stripe billing with idempotent payment verification to prevent duplicate charges and credit misuse.

- **Containerized Deployment on AWS EC2** Dockerized the full-stack application for consistent environments and deployed on AWS EC2 production server.
- **CI/CD Automation with GitHub Actions:**Configured automated testing, building, and deployment pipeline that ships every push to production

KEY ACHIEVEMENTS

Delivered6 full-stackSaaS and client applications

- panning AI systems, payments, and dashboards across personal and freelance work

Completed and delivered an international freelance project

- Car rental management system for an Australian client within a 2.5-month timeline

SKILLS

Frontend

React.js Next.js Tailwind CSS Shadcn UI Redux TypeScript JavaScript ES6 TanStack Query

Backend

Node.js Prisma ORM Nest.js Express Next.Js API Router JWT/OAuth

Databases
